HHS extends relief fund attestation deadline

HHA is now giving providers 90 days to attest to receiving relief payments as well as accepting the terms and conditions. The compliance deadline covers payments from the CARES Act and the Paycheck Protection Program and Health Care Enhancement Act.

As with the original 45-day deadline, recipients who do not return the funds prior to the 90-day deadline will be viewed as accepting the terms and conditions. Hospitals likely received more than one payment from various relief distributions. The deadline is from the date of receipt for each payment.

SNF relief distributions

Friday, HHS began distributing relief funds to skilled nursing facilities (SNFs). A base distribution of \$50,000 to each facility plus \$2,500 per bed is designed to alleviate some of the lost revenue and additional expenses nursing homes are experiencing. As with other relief distributions, recipients will have to attest to receiving the funds, use them for permissible purposes, and agree to the terms and conditions.
