Governor calls Legislature back to Boise

The Governor has called the Legislature back to Boise for the purpose of passing emergency legislation. This legislation is temporary, only effective during a declared coronavirus emergency, and put in place to address this increased liability risk. It’s important to note that, although the Legislature's Judiciary and Rules Working Group passed the civil liability proposal, there was a lack of support from other members of the Legislature. The legislation is temporary, only effective during a declared coronavirus emergency, and put in place to address this increased liability risk. It's important to note that, although the Legislature's Judiciary and Rules Working Group passed the civil liability proposal, there was a lack of support from other members of the Legislature.
